Indicators Used

INDICATOR	DESCRIPTION AND HOW IT WAS CALCULATED
<u>Undergraduate program</u> Retention Rates	At least 70% our first year students and 80% of our transfer students will continue in the program after their first year. How it is computed: Retention rates are calculated as the percentage of students who return to HSU after the first academic year. This data is collected/computed by the University Office of <i>Institutional Effectiveness</i> .
<u>Undergraduate Program</u> Graduation Rates.	At least 60% of the transfer students will graduate in 3 years. How it is computed: Graduation rates are calculated based on percentage of transfer students who have completed the program within three years. This data is collected/computed by the University Office of <i>Institutional Effectiveness</i> .
Graduation rates	At least 90% of the students in the one year track will graduate in time. How it is computed: MBA graduation rates are calculated based on percentage of students who have completed the program within one academic year (including summer semester). School of Business tracks the graduation date for each MBA student in a spreadsheet to compute this rate.

Note: We are currently making changes to our Green to Gold Program (first year learning community) to improve retention rates for first year students.
